

Marxist Endorsements

Marxism is the belief that all people are divided into two groups - oppressor and oppressed - and that “institutions” that bring order to society - such as the police department, Judeo-Christian for morality, and the sanctity of the family - must be targeted to transfer “power” from the “oppressors” to the “oppressed.”

These organizations champion specific changes that they would like to bring to society that are in line with this Marxist philosophy.

Democratic Socialists of America

- “Progressively disarm law enforcement officers, including the police and private security.”
- “Decriminalize sex work and drug trades.”
- “All medically necessary services must be fully covered. ... including “abortion” “gender-affirming care”

- “We support universal access to abortion care and the ability to fund abortion care through Medicaid.”

- “We support the increased representation of women, minorities, LGBTQ+ people” particularly in “legislative, executive, and judicial positions.”

- “We support common-sense legislation that expands the ability of citizens to participate in all elections, including vote by mail”
