

Marxist Endorsements

Marxism is the belief that all people are divided into two groups - oppressor and oppressed - and that “institutions” that bring order to society - such as the police department, Judeo-Christian for morality, and the sanctity of the family - must be targeted to transfer “power” from the “oppressors” to the “oppressed.”

These organizations champion specific changes that they would like to bring to society that are in line with this Marxist philosophy.

2nd Amendment Endorsements

Moms Demand Action is an organization that works to “pass stronger gun laws” as the answer to gun violence. In contrast, the National Rifle Association is committed to “preserving the right of all law-abiding individuals” to use firearms.

“NRA relies on a very simple premise: when provided with the facts, the nation's elected officials will recognize that "gun control" schemes are an infringement on the Second Amendment and a proven failure in fighting crime.”

“Defenders of history's patriots and diligent protectors of the Second Amendment.”
